BACKGROUND:

On April 25, 2017, the City Council, by resolution, rescinded the Stage 1 Water Shortage Emergency along with related emergency water conservation measures and restrictions. The Council urged citizens to continue to practice every day water saving measures, and reiterated that the previously adopted water saving measures were to remain in effect.

In October 2019, the City's water use was 218.9 acre-feet with a per capita use of 130 gallons per day/per person. There was no rainfall in October. The water use for the current "rolling" water year from November 2018 to October 2019 was 2,149 acre-feet, which equates to a per capita use of 109 gallons per day/per person. There was a total of 18.95" of rainfall for this period.
