ORDINANCE NO. 676

AN ORDINANCE OF THE CITY COUNCIL OF THE CITY OF ARROYO GRANDE ADDING CHAPTER 8.34 TO TITLE 8 OF THE ARROYO GRANDE MUNICIPAL CODE REGULATING EXPANDED POLYSTYRENE FOOD CONTAINERS AND PRODUCTS

WHEREAS, the City of Arroyo Grande ("City") has the police power to protect the health, safety and welfare of the community, including the ability to protect and enhance the natural environment; and

WHEREAS, according to the California Department of Transportation, expanded polystyrene products ("EPS") comprises approximately 15% of storm drain litter and is the second most common form of beach debris in California. Also, plastic products, including expanded polystyrene, make up 80-90% of floating marine debris; and

WHEREAS, the City boundary includes numerous creeks and other waterways, which are an important natural resource as exemplified in various policies of the City's General Plan. Expanded polystyrene products break apart into small pieces and ultimately flow to the Pacific Ocean contributing to concerns related to water quality and habitat protection both within the creek system as well as the marine environment; and

WHEREAS, items made from expanded polystyrene are not biodegradable, compostable, or recyclable locally; and

WHEREAS, expanded polystyrene breaks into small pieces and because it is lightweight, may be picked up by the wind even when it has been disposed of properly; and

WHEREAS, expanded polystyrene as litter is highly durable and is present in many public places, streets and roads, waterways and storm drains which may ultimately float, or be blown, into the Pacific Ocean; and

WHEREAS, marine animals and birds often confuse expanded polystyrene with pieces of food, and when ingested, it can impact their digestive tracts, often leading to death; and

WHEREAS, expanded polystyrene is manufactured from petroleum, a non-renewable resource; and

WHEREAS, take-out food packaging that is biodegradable, compostable, and recyclable is the most responsible and sustainable choice for the City's tourist economy, its citizenry and its environment. When products are recycled, natural resources are spared, less energy is used for the production of new products, and landfill space is preserved; and

WHEREAS, regulating the use of expanded polystyrene products will maximize the operating life of landfills; and
WHEREAS, regulating the use of expanded polystyrene products within the City will help protect the City's natural environment from contamination and degradation.

NOW, THEREFORE, BE IT ORDAINED by the City Council of the City of Arroyo Grande as follows:

SECTION 1: The above recitals and findings are true and correct and incorporated herein by this reference.
