Contact Person: Commander John W. Hough

Phone: 805/473-5126

Date: April 8, 2010

POLICE DEPARTMENT WEBSITE

In a continuing effort to ensure the safety of motorists and pedestrians in the community, the Arroyo Grande Police Department has developed two methods for members of the community to advise the Police Department about traffic problems they notice. The first method is a link to "Traffic Problems" on the left side of the home page of the Police Department website at www.agpd.org that gathers specific information about the problem and contact information for the individual reporting the problem. The second method does not require access to a computer. It is a dedicated telephone number (805/473-5136) for individuals to use to report traffic problems. The messages left on the telephone number will be reviewed on a regular basis by a member of the Police Department. Based upon the information provided through either of these methods, the Police Department will develop selective enforcement plans to address the problems.

In a related matter, the Police Department website has been modified to include a link to two websites designed to appeal to younger children while at the same time provide important safety information on a wide variety of topics, including traffic safety. The links are accessible by clicking on "Kid's Corner" on the left side of the Police Department website home page.

If you have any suggestions for information you would like to see added to the Police Department website or any improvements you believe should be made to the website, please contact Commander John W. Hough at 805/473-5126 or jhough@arroyogrande.org. The Police Department website is constantly evolving and we are always working to find ways to better communicate with the community and address community concerns through the website.

Ensuring Quality of Life
